## Bill Curtis, Portland, Oregon

## Dear Susan

Thanks for giving us our dog back. Our 9-year old Brittany has suffered from skin and intestinal allergies most of his life. We tried dozens of dog foods, including the non-allergenic food supplied by our vet to no avail. Due to your formula, no more licking, scratching, etc. And for the first time, he enjoys eating. Before, he was finicky and ate only when very hungry. (Should have told us something, right?) Some secondary benefits include a more lustrous coat and, he no longer wakes us in the middle of the night to go out.

A testimonial to your skill and knowledge: We now have a happy dog! Thank you again for your help. If a prospective customer wants my phone number, feel free.
