

Dr. Susan Lauten's comprehensive approach to nutrition, combined with an in depth customization for your pets needs make her the perfect pet nutritionist. Her knowledge helps bring permanent and sustainable dietary solutions to a myriad of problems.

My wife and I had always known the importance of good nutrition for our pet and had made feeding choices with that in mind, but when her health started to decline we were lucky enough to be given Dr. Lauten's information. Since that time she has provided unfailing support in our efforts to give our pet the best care possible.

During a recent bout of pancreatitis, Dr. Lauten's guidance and ability to work well with other Veterinary professionals was invaluable. Working with a team of specialists to formulate treatment, she was a key member whose knowledge and skill made it possible for our pet to recover at a speed that surprised everyone involved.
